TRADITION ONE

*'Our common welfare should come first;
personal recovery depends on NA unity;*

For those who have been around awhile, you know the meaning of this tradition, so I'll break it down for the newcomer. We must understand the definition of our "Common Welfare". Webster defines welfare as the state of being healthy, happy or prosperous. Next there's Unity the state of being untied as a whole.

So it breaks down like this, the entire community of NA as a whole should be in a state of sharing health, happiness and prosperity. This will then enable us to enhance our personal recovery. This is the simplest way I can put it in my own terms and understanding. I suggest you get with your sponsors and go over the traditions with them.

Now regardless of what you see and hear at meetings, the 12 traditions are vital and the first tradition is so very important. It allows us to keep and maintain an atmosphere of recovery. Just for today, let us therefore honor our traditions. They are the guidelines that keep our fellowship alive and free, but it is only with understanding and application that they work !!!

Tony W.

NA LOVES YOU DAVID E.

NA is your family, when you walk into the rooms it lights up. Your spirit was so strong and your words was so powerful. We love you. Your brothers and sisters of NA loves you. Your legacy that you built in NA will go for others to have hope, courage and strength. You have recovered our friend forever. This life of achievement for eternity, a gift from everyone in NA around the world....

Cassie J.
