

CRSC Regional Delegate Team(RDT) Report

April 26, 2020

ASC Visits

As a result of the ongoing pandemic, scheduling of in-person ASC visits has been put on indefinite hold.

World Service Conference (WSC)

For the first time in NA's history, the WSC is being conducted virtually via Zoom in twelve, two-hour sessions spread over 10 days (April 24 – May 3, 2020). The RD and RDA will be representing the Chicagoland Region during these sessions; consequently, neither of us will be in attendance at the April RSC. Conference Participants (Regional and Zonal Delegates, World Board members) and NAWS staff have met virtually over the last several weeks to determine a virtual meeting schedule and agenda content.

This partial, virtual meeting of WSC will not include CAR motion decisions, but *will* include discussions and decisions regarding the CAR (Literature) Survey, NAWS Annual Report including an emergency budget, elections, project plans, and the FIPT inspection clause moratorium end date. This body will also develop a plan and timeline to address the 16 CAR motions that Conference Participants have decided not to include at this time. More than two hundred forty delegate teams from all over the world have been in attendance!

Any NA member is welcome to attend the sessions online. Look for the YouTube link *no earlier than five minutes before each session* at www.na.org/conference. There is a new link for each session.

MZF

The Midwest Zonal Forum (MZF) has continued to expand access to its online meeting platform to accommodate NA recovery and service committee meetings in ours and several other member-Regions.

We hope you will all be well.

Respectfully submitted,

RD Team

Jacqui L., RD

Charles G., RDA
